Promotions & Marketing

Want your brand to stand out with a unique form of marketing? Then consider integrating synchronized swimmers into your poolside promotion or product campaign. Not only are our swimmers experienced and talented, they are gorgeous models who can be your perfect brand ambassador. Liven up your activation with an in-pool swim-up sampling of floating trays, followed by a dazzling, aquatic performance! Or have a highlighted show at your company's launch party with branded swimwear and swag!

Our CEO has over ten years experience in promotions, and fully understands the marketplace and the importance of brand awareness. This unique activation will certainly attract a crowd, and bring an increased interest to your product.
